

AI Prompt Optimization Report

Original Prompt: explain me about dsa

Optimized Prompt: Please provide a clear and concise explanation of Data Structures and Algorithms (DSA) for someone new to programming. Cover what DSA is, why it's important, common types of data structures (like arrays, linked lists, trees), and fundamental algorithms (such as sorting and searching). Include simple examples to illustrate the concepts.

Quality Score: 60/100

Category: Educational Request

Suggestions:

- Review the optimized prompt.
- Add more context if needed.
- Use examples for better results.
- Test the prompt with AI.
